James Silvester

Still new to the top secret Overlappers intelligence team and on her first "hit" alone, Lucie Musilova has an attack of conscience and nearly botches the operation, taking a bullet wound before finishing off her target. Here, she investigates a number of disappearances of European women from Britain – women all missing without trace until the body of one is discovered, raped and murdered. Lucie learns that tens of women have disappeared, all with little investigation. As she digs deeper she begins to uncover a terrifying international conspiracy that potentially threatens not just her life, but to topple governments.
